

Why are we here today? A little of this and a little of that.

It is 2016 and We voted for Trump wanting a wall, deportations, manufacturing to return from overseas.

Add to this Putting US FIRST! And LOCKING UP THE CRIMINALS among our 'elite'.

You know how good that felt in 2016 the idea that us PLEBS might be FIRST SOMEWHERE SOMEHOW? That somebody was promising to bring JUSTICE TO OUR SHIT BIRD POLITICAL CLASS?

Then that got yanked days after election with 'GOTTA MOVE that Embassy to Jerusalem' and 'No we are not gonna really Lock Her Up' ... LIKE WTF ... #Israel is not part of the USA!

I wanted the TRUMP that gave the Warsaw Speech. I got the Platinum Plan instead. I voted for Trump in the primary , ashamed and awake now, I realize he's just the same shit politician elite just packaged in a different colored gift wrap, he was just buying time for Jew politicians and playing the stage for conservative whites to be strung along on false promises ...

FEEL RIPPED OFF. Bleed my eyes helping that CHUCK GET ELECTED during the Great Meme Wars of 2015-16 ... What did I get ... Some Cheap Slogans and a COVID LOCK DOWN!

If Trump would have just offered the Platinum Plan to the POOR WHITES that elected his ass he would have won!

Then the RUST BELT and MID WEST would have turned out 100% like they did in 2016.

But he went chasing after useless blacks. Trump pathetically pandered to blacks for 4 YEARS....yet 90% of them STILL voted Democrat.

Trump kissed Israel's ass for 4 YEARSyet Netanyahu just kicked him to the curb. the same blacks that trump pandered to for 4 years cheated him out of thousands of votes in the cities

the same jews he pandered to led the charge against him in the media and were the dominant donors to joe biden ... "Trump kissed Israel's ass for 4 YEARSyet

Netenyahu just kicked him to the curb." ... Vladimir Putin was actually more fair to Trump than Netanyahu. Putin didn't accept Biden as the legitimate president until Trump's legal challenges had been resolved, while Netanyahu congratulated Biden on winning mere days after the November vote took place.

Amazing that Trump could be so out-of-touch to think that endlessly bragging about 'lowest black unemployment' all the time is what his mostly-white base of voters wants to hear. The loss of white male votes outweighed his gains from blacks. I am so sick and tired of hearing about niggers, I just tune out whenever anything or anyone "black" is mentioned. I have a MAJOR case of Nigger Fatigue! Never has there been a more obnoxious, more ungrateful, more violent, more despicable race of people -- "the White Man's Burden" indeed, multiplied by a billion! Trump only spent \$0.5 trillion for 5 extra African American votes. That is only \$100 billion per vote!!! NO promise of billions of dollars for us. No money or help for our "dreams".

How much time did Trump spend on the hollowed out towns of blue collar white Americans WHO LITERALLY PUT TRUMP IN OFFICE???? WHO

FOUGHT THEIR ASSES OFF FOR HIM IN 2016.

ZERO...that's how much time Trump spent on working class blue collar whites....ZERO.

No 'platinum plan' for blue collar whites. No 'American Dream Plan' for blue collar whites. No stimulus when Trump shut the country down starting in April to "flatten the curve". Their lives wrecked and he's squawking about black unemployment and gives blue collar white workers 1200 measly dollars after he destroyed their jobs and businesses???

Big Tech and Big Corporate America flourished during the lockdown originally initiated by Trump (Amazon made 13 billion in one freekin day, Walmart etc while blue collar white America got CRUSHED). Meanwhile, Trump's busy bragging about the stock market. ?????

I'm sorry but that's a HORRIBLE way to treat the descendants of the men and women who built this country.

No damn wonder they stayed home on election day. He lost because he DESERVED to lose.

MAGA excuses for Trump: You're ridiculous. Trump said to the world, "America will never become a Communist Nation," And then America woke up to what was already here. He didn't bring it. He brought the conversation on about communism to all of us, when Obama was an in your face communist and nobody even knew what communism was. Now we all understand, we've gained knowledge. That's a great first step. You think you can just run right up to the top of the pyramid without taking the first step.

Reply: You gained all THAT knowledge and DID what WHAT with it for the last 4 YEARS genius???

STOP THAT THOUGHT!

I know what you classical liberals (Conservatives) did...

NOTHING! ZIP! NADA for 4 WHOLE YEARS!

Move over, its time for the patriot party and mavericks like #NickFuentes to clean house of you useless 'mokre shmata' Republicans.

More excuses:

Year 1: he's never been a politician, give him time.

Year 2: wait until after midterms, we've got to keep the house and senate.

Year 3: he's not a dictator, he can only do so much as we lost the senate.

Year 4: wait until he wins the election, he'll be more effective his 2nd term.

Sound familiar?

Me: ??

Hard Fact: Trump did absolutely nothing to stop non white immigration. He signed every America last omnibus and COVID bill, which benefited only big business and the elite, while the little guy received pittance. He hired and appointed nothing but the swamp, a swamp vetted and approved by his Jewish masters. He added trillions to the debt, spending like a drunken sailor. He put Israel's interests ahead of the United States. No e verify, no tax on remittances for Mexico, he still gave federal funding to sanctuary cities, anchor babies still allowed, h1b migrants still replacing the American worker, unconstitutional daca still in force, border wall not funded, no troops at the border, all of which he had control to do something as president. Not

one member of the swamp was arrested or prosecuted, he let blm burn our cities down with impunity, while his justice department went after and heavily prosecuted whites in Charlottesville. Big tech power grew exponentially under trump, they silenced and banned his supporters and Trump tweeted u til even he was deplatformed

But we did get kardashian prison reform, which let non white democrat criminals out of prison, the platinum plan (let's give worthless non whites a trillion dollars and the white taxpayer will fund it), bump stock ban, and the lowest non white unemployment ever ??. What kind of leader walks out, during vast election fraud and a questionable election? A gutless fraud, who betrayed his base, and folded anytime the going got tough.

We sure did a lot of winning during his illustrious 4 year presidency ??

Winning like this: Like, as bad as the biggest hoax in human history crashing the world economy so that globalist elites can proceed with their "Great Reset"?

As bad as the most egregious acts of treason in this nation's history going totally unpunished by deep state

shitheads like Barr?

As bad as charging people with murder for defending their property? How about that Wray fella - Trump's appointee - saying the biggest threat is WHITE SUPREMacists while our country is burnt to the ground by commies and blacks?

As bad as an election system that's an international joke? Maybe letting that Kobach commission flounder and die wasn't a great move.

I understand where you are. All the people to the right of you GET IT. A lot of us (me) voted for Trump. Now you need to try to see what we see - that "conservatism" has failed to "conserve" anything for over a hundred damned years. Conservatives have been conditioned to accept symbolic victories and hollow wins. And accept loss with "dignity" etc etc

Well why don't you train your politically correct eyes on all the negros clamoring to kill whitey. Hmmmm? How about at every turn the negro vilifies the WHITE man. You fool! If it weren't for the WHITE man giving monthly handouts to the blacks they would be chimping

out even more. You can start to thank LBJ and his LOL "GREAT SOCIETY" for that and your misguided beliefs. You are a fool sir. Not recognizing race is one defining factor in the festivities to come. There are many people that have an axe to grind. Remember your skin color is your uniform.

Libertarian = Liberal = slow-walk lefty. A) The Gold Standard meant nothing, means nothing, is nothing. (1) trading in gold ended poorly in the early 1900's. (2) If we made it, say, the Brazilian Rosewood Standard, it would mean the exact same thing. Whomever controls the supply sets the price. Tearing mountains down efficiently may guarantee that you control the price of gold, whereas basing the dollars on trade, like oil and gas, food surplus, commodities, for value is a good way to protect an economy from rock thieves, hoarders, and other economies that have a huge mining industry. Specifically, China.

Liberalism needs an enemy: someone it can defeat politically rather than actually solve problems, for which Liberals are inadequate. And do recall the GOP are 'center left liberals' who have MORE IN COMMON

with COMMUNISTS than they do with actual conservatives ... And being fully on board with every ANTI-WHITE POLICY put forward since reconstruction.

The problem is that from the Civil War to the Civil Rights Movement a century later and then to today, after another 60 years, none of the social engineering regarding race has ever worked.

In fact, it's made things worse as the Republicans themselves finally conceded in 1876 when they essentially signed off on Jim Crow as the best way to remediate the damage they had caused by Emancipation and civil war.

Current personality inventories administered en masse and separated by race seem to indicate that "white privilege" is, in fact, the result of higher average White scores in IQ and other psychometric categories essential to civilization.

For instance, average White IQ is 100: negro, 80.

Marginal retardation starts in the high 60s.

American negroes do better than African, indicating the

American phenotype is the extent of the negro genotype.

This is biological. No gov't program can change it, other than misconception, which lowers White average IQ in addition to unknown problems.

Test data indicates, in fact, that a lot of the old demonized stereotypes and cliches are, in fact, the result of observation and not necessarily anything mean or vicious as the current Liberal race baiters would have us believe.

Negroes are dull, impulsive and self centered. They act that way from S. Africa to Chicago because "they were born that way".

Outliers, like Candace Owen, are outside the first standard deviation, maybe the second, and do act more "White".

But they are outliers on the bell curve, not the normal and we cannot make public policy to suit every individual.

White Nationalists are not to blame for this.

But Liberals do blame us because otherwise, liberals

would have to admit that everything they have done since 1854 (when Republicans were the liberals) has been one big mistake.

Emanicpation was good idea.

It stopped the spread of negroes in a White civilization. But doing it by a White Civil War and then granting equal rights to another race and de-segreation were bad ideas and now, Whites are expected to pay for that, again.

The only option to defeat the will of Liberals is to raise a will of our own.

Obvisouly, we are not going to argue, vote or legislate our way out of this or we would have won a long time ago.

Yes, this is the stuff of military action.

It always has been.

BLM and antifa have already fired the first shots. John Brown needs to hang, once again and this time, secession is way more likley to succeed.

Our monetary system, owned and controlled by Jews

has created inflation and stagnated wage growth for the past 50 +years. The America last covid bills, signed by trump, which added trillions to the debt (taxpayers have to pay it back), with only a small percentage going to the American people. Why aren't you using this energy to lambaste and disparage government spending and waste for big business and foreign aid. I'm a taxpayer who is in the 37 percent tax bracket and I am happy the little guy is getting the extra unemployment incentive to stay home and seeing good fortune probably for the first time in their lives. You Jewish capitalist apologists should practice what you preach. If companies are having difficulty filling positions, they aren't paying enough.

Boomers to the rescue: Boomers: the generation who thought they were right in the 60s and that everyone should.listen to them.

Meanwhile they gave away the country during the 60s,70s,80s,90s amd now in 202 they think they're still right and every body should listen to them?

If we don't vote GOP in 2022 who will write the strongly worded letters to the people who want to rape and murder our children? Who will vote for reparations to Blacks and protections for faggots and sexual

degenerates? If we're going to vote for communism and endless government spending I want it done by a beer drinking, barbecue eating, God fearing republican. Thats what freedom is all about.

the problem is, @CindyNavyATC, that you operate under the assumption that things are largely still the same as when you were young abliet with a few more crazy people with blue hair and dudes in dresses going out in public

have you given any thought to the stagnation of wages vs the explosion of cost of living?

have you given any thought to the hundreds of thousands if not millions of family supporting jobs that have been shipped over seas by vulture capitalists like Mitt Romney and Paul Singer who have made their fortunes by monetizing our social capital?

do you wonder why it is that people do not interact with one another anymore or why the number of people who say that they have at least one close friend has fallen off a cliff?

has it ever occurred to you the current economic crisis

on the horizon and the absolute collapse of social cohesiveness are perhaps related?

The Mask is just one more way to Deracinate and Depersonalize the White Masses ... The liberal White is the sucker fish of the modern world.

The people who created Covid-19 are the same people who investigated its origins and told you there was nothing to worry about.

The people who stole the election are the same people who claim to have investigated the alleged fraud and told you there was nothing to worry about.

The people who staged a false flag on 1/6 are the same people who investigated the alleged "insurrection" and told you a handful of MAGA supporting grannys carried out an act equivalent to Pearl Harbor.

Delta Variant? Sheeeit please!

Healthy unvaccinated people don't cause virus strains to mutate. Thats not how science works.

Virus strains never mutate into a deadlier form.

Thats not how science works.

If you want the variants to stop, the vaccines have to stop.

If you want the lies about the variants to stop, the MSM has to held accountable.

It's that simple.

But QAnon and Trump will save us!

QAnon is a carbon copy of operation trust in 1920s Russia that killed 60 million Christians.

“Operation Trust” was a Bolshevik counterintelligence operation run from 1921 to 1926 aimed at neutralizing opposition by creating the false impression that a powerful group of military leaders had organized to stop the communists’ takeover.

"The best way to control the opposition is to lead it ourselves" - Vladimir Lenin.

Q made Trump supporters who were right to be angry over the criminal nature of our ruling class delude themselves with fantasies that “White hats” in the military were going to save us.

Meanwhile Attorney General William Barr was busy covering-up the Jeffrey Epstein case and the Kushner administration was busy pardoning fraudsters who donated to the Aleph Institute and releasing traitor Jonathan Pollard from parole to “make aliyah” in Israel.

Any real solutions will have to come from outside the controlled GOP/democrat uniparty ... Fraudulent elections have consequences. Not standing up against fraudulent elections have worse consequences. Maybe if we installed someone like YOU in the Oval Office things would get fixed. Oh...wait...never mind.

Too many Failures. Too many betrayals. Too many Compromises just to get a Chalked in "W" for yourself that was easily erased by the next guy. Everyone talks about the Nuclear Football..... and the incompetent, insubordinate, loser Generals....

But the machinery of the Federal Agencies are most impressive weapons too... Used way more often by

Presidential whims.....Specifically used against citizens..... I think of them as Giant Wood Choppers....mulching up the private sector.... and unsuspecting freedom lovers just minding their own beeswax.

Then why didn't YOU secure our elections?

Why didn't you evoke the 1807 INSURRECTION ACT.
Why did you appoint so many republican swamp creatures in you DOJ and SUPREME COURT?
Why did you shove Dr. Fauci down our throats?
The CDC is there to advise the President & provide recommendations ...they're NOT an elected branch of government higher than the PRESIDENT as YOU turned them into.

The shutdowns, the lockdowns, massive illegal immigration, forced masks, forced vaccinations, it all started while Trump was in office.

Congratulations you opened the door to medical & corporate tyranny. Too bad you didn't stay and fight for us and the country. 4 years of fighting only to give it all back and endanger your supporters as terrorists.
Awesome that you keep pointing out all the bullshit.

You could have saved us by declaring a coup...the people would have defended you with our lives. if only we had held the presidency in 2020 and he would have invoked the insurrection act.... and not pushed these deadly vaccines... and when sick taken hydroxychloroquine or ivermectine or a president that didnt ball up in a corner when the communists... er um i mean the democrats brazenly stole the votes right in our faces. unfortunately our president morphed into mitt romney/lindsey gaga. Now what....youll never dislodge the communists now. The U.S. officially became a Banana Republic on Nov. 3rd. Voting has become a joke! Our military with it's trillion dollar annual budget can't defend our own border. Our military exists just for wars for Israel.

Speaking of the AIPAC cash ...

don't you find it curious that democrats were able to block and sue trumps every move, but republicans are like helpless kittens against everything happening now? Don't fall for it, almost every republican in Congress is a lawyer, they could have filed hundreds of lawsuits to roadblock most of this insanity but they haven't. Republicans inaction is just as responsible for the carnage we're suffering.

Fauci says we have our freedoms back IF -- Fauci Says if Majority of Americans Get Vaccinated, Covid Will be Under Control by Spring of 2022 -- How's that going to work, Fauci? Vaccinated people still get Covid, they still spread Covid, and they still go to the hospital and die of Covid! How much of your double speak are the American People expected to believe? The vaccines are not only killing and injuring a great number of people - for what? The vaccines are just NO GOOD - they don't work! So what is the Democrat Cabal's secret agenda with regard to the Covid Virus, they created? Was it just to STEAL the 2020 Presidential Election, or is there more? Is there a plan to use the virus to Control us? And now they say another "Shot" is needed! How long will this go on before we're all dead, or turned into Zombie like creatures who obey the fraudulent government?

Sounds kinda like 14 day's to flatten the curve or, if we all do our part and wear a mask, or just stay six feet away from each other to, just lock yourself inside your home with your mask on, and remain 6 ft away from your family members, to when we get the vaccine, to when 30% of the population is vax'd, to 70% of the population is vax'd, now not till 100% of the population is forced to be vax'd! To, not until you've been vax'd

and, had all your boosters and spend 3 months in a re-educational program at a fema camp..... and so on, and so on, and so on! It will never end!

So how many people want to wait till Spring 2022 to find out the Omega strain is taking over the world and we need to go into a super hyper lockdown where you need to be approved by 18 levels of government to go to the store and get milk, and any person not vaccinated will be put on a train and taken away to never be seen again, I think between the US and Canada the time to tell the government you do not have my permission to take my freedoms for a non-existent virus and I want your resignation by the end of the day.

I'm now so fucking tired of hearing these globalist little shits trying to impose their experimental drug and their bullshit, I will not stay quiet anymore. I'm done if you wear a mask and walk in front of my house I will make fun of you, if you tell me to wear a mask in your store, I will throw what I have in my cart/hands on the floor and walk out, 100% of the time now I will be practicing social disobedience, I was only doing it for specific places before but now it's everywhere all the time.?? ?? ?? ??

Also the FDA approved: The FDA letter approves the COMIRNATY vax, a product by BioNTech which is part of Pfizer. The problem is, it doesn't even exist yet. Then, the FDA letter declares the Pfizer vax (still under EUA in the US) is identical in formulation with the COMIRNATY vax and may be used interchangeably. This is an effort to show approval for the remainder of the Pfizer vax. This is a dishonest, disgusting, political act made to promote mandates and confuse the public. It is as unscientific as it gets.

Fauci OWNS 1/6 of the patent on the experimental Moderna mRNA injection. The more low info, [unable to do their OWN research on the grave dangers of taking injections] Americans who take the jab, the richer Fauci becomes!

Ever heard of 'disqualified for colossal conflicts of interests'????? Fauci is NOT a "salesman." He's been photographed with the Rockefeller Brothers and Bill Gates Sr. back in the day. The photo is real.

Salesmen sell to people who get to decide whether it is a good idea.

They Are About To Make It ILLEGAL To Protest Against Vaccinations!

We live in a world that is totally upside down and it is terrifying to be a part of it. We were once a country that applauded individualism and being our own person, but now that is shunned for the good of the collective. We once were a country that protected peaceful protests and speaking out against tyranny, but now that is called insurrection and must be punished.

So much for the land of the free.

Now, in one state they are going one step further to ensure that there is any dissent as they push the new world order upon us all.

Mercenaries are paid to enforce an outcome on unsuspecting targets. Usually that outcome is death. And having the full force & credit of the USA behind mercenaries usurping constitution rights, usurping our freedom with no right to justice, then you are asking for a WAR

First, you're right no one is coming to save you. The government however is under the control of Jews who want to see your entire race exterminated. And I promise you the gender fluid soy bois and BLM attack dogs they are going to replace the police force with, are

coming to kill you sooner or later. And they are going to bring a hell of a lot more than a pistol.

So yeah, get a pistol, carry it everywhere you go. But get a rifle and some military grade body armor and equipment too. And then carry those to your nearest militia and sign up. You owe it to your race to kill the genocidal government Stasi who want them dead and are chomping at the bit to execute your entire family for political crimes.

And people carry 9mm because the compact pistols that make effective concealed carry weapons have twice the capacity of .45...

More shots you got, better your chances of going home alive.

April 2020 coronahoax almost took the whole jenga tower down. They quickly reversed the lockdown orders impacting basic manufacturing, which being morons they did not understand sufficient to parse essential from non-essential, so they just let every factory reopen.

What you've said there is 100% true.

The system has zero slack. Every last ounce of productivity is being squeezed for profit, which means just-in-time delivery and few stockpiles, an electric grid with insufficient capacity to handle any major failures, etc.

Although a fair amount of redundancy is built into computing infrastructure, ultimately this is becoming less as telecom companies continue gobbling each other. Also, this also depends on availability of parts for maintenance, reliable electricity, etc.

Very few states, even on a state basis, are food self-sufficient. That would change if even 10% of people started seriously doing small scale farming in their yards, but that ain't happening.

All of our systems are stretched thin and interdependent. They have removed all redundancy and slack and as a result lack resilience.

IE the system is dying while it flails about like a wounded dragon.

Meanwhile SNITCH GOP TYPES are proud they can rat us PROUD WHITES OFF TO THE ZOG ... so brave, being anti-White in 2021 which is exactly what is approved by all the corporations and mainstream media. You are such a brave soul.

You know, all you keep doing is flaunting the fact that you can publicly make the statements you make with your face attached to them. Do you ever really stop and ask yourself why? No, you don't. So let me enlighten you a little bit. You literally hold the same ideology as the 'establishment' you claim to be fighting. You can go out to any city in this country and repeat EXACTLY the same bullshit you type on here with absolutely no repercussion because that very same establishment, whatever you think that is, is in agreement with your stance. You are anti-white. You are an advocate for the further destruction of America. You have literally contributed nothing to society yet you have the audacity to try and proclaim us as the ones causing problems.

If you ceased to exist, the most the world would be missing is a radio song from 2002. If we all disappeared, there would be holes in our communities that would affect generations, unable to be filled by anyone except White People and their fortitude. We

hold this country together. We are the strength. We are White and we don't need your condolences to continue building greatness. We are White and we don't need your permission to embrace our culture, our heritage, and our lives. WE built this nation. We built the language you speak. We built the homes you reside in. We built the platform you demonize us on. We built this, all of this; And there isn't a single shred of hope you can do to stop us from prospering. That is what eats you up inside. You know we are great, that we are the BEST at what we do.

Response: Nazi! Hater! Blah Blah Blah!

Different day, same garbage. It seems as though normicons are addicted to lazily repeating the same scripted lines day after day.

Perhaps the funniest part is the fact that your deceptively weak argument is predicated on the idea that anyone here actually cares what the mainstream media has to say about anything, let alone White Nationalism.

Or are we trying to convert "progressives" now, so they can come here with many of their worst ideas still in

tow?

We *WON'T* tolerate anything anti-White anymore. We will resist it and continue to advocate for our race in whatever capacity we can. This is non-negotiable.

Learn to deal, without boring us with your Bill Mitchell levels of censorship hypocrisy. Either that or crawl back to Twitter where you (mostly likely) belong.

It's not that we left Afghanistan. we shouldn't be there, we should have pulled out a long time ago, but it's the grossly incompetent way we left! Its just annoying that utter clowns like Bush, Cheney, Obama, McCain, and Biden pissed away trillions of dollars whilst getting our soldiers maimed and killed for absolutely nothing. We are governed by illegitimate, unelected incompetents!!!!

A horrific distraction from the rest of the horrific crisis going on. When everyone suddenly starts sing from the same songbook, and when they ignore vitally important issues at the same time, I always become suspicious.

The Afghan nationals who clung to the underbody of the U.S. military transport and fell to their deaths happened on Biden's watch. it started with people jumping from the twin towers so they wouldn't burn to death and it ended with people falling from US military jets so they

wouldn't be beheaded. Also -- It's amazing that the coronavirus has decided to stop being a top news story and a worldwide threat while America gets humiliated in Afghanistan. It's thoughtful of the virus to give the regime a breather to deal with their Middle East catastrophe.

Truly horrible bookends -- they both are moments of imperial humiliation. "We can take?"

Not only humiliated but exposed. Weakness invites more attacks. It's coming. Our enemies are already on the move. It's a given. This false government is afraid of its own people, much more it's formidable enemies. Democrats always cut and run with no concern shown to our allies! They did the same thing in Vietnam! Do you realize how they are weakening our military? We won't even be able to protect our own country, with an idiot like Milley in charge, who is all worried about "white privilege" instead of being ready for war. Not to mention that if they force our soldiers to take the jab, we will be facing the health effects it has on our soldiers. We won't be going in anywhere to take things; we are being set up to allow China to come in and take over here -- more than they already have.

I'm surprised that you Americans haven't realized yet that America fell in Jan 2021. Now occupied by an illegitimate government that funds terrorist organisations, handed its soil and people to China and the globalists. And you are all worried about Afghanistan! The globalists rigged and stole an American election and are forcing our people to inject experimental substances in their bodies while our children walk around psychologically scarred from the mass hysteria, fear, and a year of wearing a mask.

I'm thinking I don't really care what is going on in the middle east, sorry. The Middle East can all die in a fire and kill each other for all I care. Then we can take their resources and dominate the world again. Fact is we have more pressing problems RIGHT HERE!!! We need some nation-building here at home. We need to think critically, research, stay focused on retaining our freedoms and working locally to regain control of our republic. This nonsense has to stop and people need to wake up, group up, and get serious about God, our Family and Each other. I agree. Sick of hearing about the women and children we are abandoning their.

But on the other hand:
No Taliban ever threw me in solitary for protesting a

stolen election

The Taliban isn't trying to inject me with an experimental poison

No Taliban ever declared me and my family the biggest threat to their country

It isn't the Taliban promoting toddler gender transitions in my state

Don't remember the Taliban telling me to put face panties on or lose my job!

Thank God "we won ww2." Now niggers are free to shoot White kids in the head, toss them out of mall windows, and jooz can convince your precious children that dying in the desert in some bum fuk country in defense of israel is honorable & patriotic.

Our children are called murderers, told they are bad because of the color of their skin, were not allow to play in parks for a year or attend school. White Christians have less social media privilege than that of the Taliban. Let that sink in. America genocides unborn children, forces little boys to be "girls" via court order and is in

the process of setting up TSA-style checkpoints at every business and public building, meanwhile conservatives are moral grandstanding so-called "conservative" politicians and pundits who morally grandstand over the Taliban being bad for women or something while largely ignoring the enormous evils being committed in our own country and by the American government.

We have no right to criticize any country but our own. America is so weak it's disgusting. Marriage is between a man and a woman. Sex is defined between a man and a woman. Anything else is perversion. And women are the primary reasons we have this Culture Rot, fag marriage and mental trans weirdo child abuse. White Children here in the USA are being shot in their car seats and own beds; CRT approved. This is planned White genocide. They need to make white, Christian males, a minority. Conservatives are anti-White; America genocides it's white population.

No one wants to talk about the pedophils or human traffickers and drugs coming across our boarders.

America is systemically racist? Defund police? Ban Dr Suess as racist? Exaggerate black murders by whites & don't report white murders by blacks? Apologize for America to other countries?

Clean up our own backyards first. We are under attack from within. Domestic enemies have been controlling the country for decades. And from without since all manner of crime, disease, drugs and terrorists can just waltz in across the southern border. And thousands upon thousand of military age men have done just that. "No more endless wars in another country's civil war, it's not in our national security interest and not what the American people want."

But right on cue: The state department just authorized 30k visas for Afghanistan refugees. I bet they vet them just like the illegal aliens coming across the southern border, but since All major elections are rigged. You'll care what happens in the Middle East when their "refugees" get whisked to America. Up the Game Reply: If the elections are already rigged then it doesn't matter if they come here and vote. What matters is that they come here and kidnap, rape, murder, assault, molest, etc. What matters is that they're replacing the White population. These are the things that need to be

stopped. Afghanistan terrorists that were let out of prison coming in through our southern border! Everyone else is and soon we will be under attack! The citizens of the United States don't matter ... America Last --

Oh On Cue here comes Neo Cohen: What is it about the worldwide threat of terrorism that you don't get?

Stop consuming neocon propaganda trying to sell you endless wars. They got like 70k troops, no navy, no air force, no icbms....but they have, CHANTS!!!! in Which they're saying death to the evil globalist American regime and Hollywood. Which is evil and vile and must die being against life. Your enemy isn't in some far off shithole country. The fight is here.

The fight is now.

Your enemy is just down the street.

At your school board meeting.

Teaching your kids to hate their ancestors, you, and themselves.

Producing Hollywood movies.

Writing the "news".

Selling you garbage on TV.

Inviting millions of dipshits to move next door.

Laughing as you are replaced.

They're shutting down your business.

They're demanding you wear a mask.

They're demanding you take an experimental "vaccine" against your will.

And cancelling you for having the audacity to notice.

Go ahead and watch a black-and-white film from the 1950s and see for yourself how it makes you feel.

Intact families, close communities, disciplined people, penitent churchgoers, innocent children, reverence for our elders, and a cohesive national fabric stitched tightly together with hard work, dignity, and pride.

There exists none of this America anymore. The past is a foreign nation. Americans never wanted this... it was shoved down their throats. Diversity is NOT better than Unity. We are NOT smarter than our grandparents. It's sad how far we've fallen and how quickly. It's very sad comparing how it used to be to how degenerate things are now.

This being said, are we at the precipice yet? Not even close IMO. We got a long way to go. There's still a lot in deep slumber. They have to proactively switch off MSM, come to that realisation they're being lied too, and seek out the truth. 80% of the people I know are still plugged into the 'fear matrix' and there's f*ck all I can do for them until they let it go ...

Once you question the official narrative, you start questioning everything and eventually wake up.

We're closer to winning than people think. A LOT of people have already questioned the narrative. Evil is now desperate and acting chaotically.

Hold that line.

You know the regime with its head up the Chinese ass? If you are so principled you should also throw out your smartphone, power tools, kitchen appliances, and literally everything else that is made in China. It's not our fault that the generations before mine sold out our country's manufacturing for globalism and profits.

Gab is an amazing intellectual resource tool -- the content here is much more informative and historically deep than any other platform.

This is one of the few places you can actually read and learn about the full extent of Zionist influence and the Zionist agenda and how substantially that agenda is destroying the West. Keep informing your fellow man!

"Hate speech" laws are intended to silence White men while we are being genocided, preventing us from discussing Jewish power and how mass migration and the secular religion of multiculturalism are turning the West into a nightmare post-apocalyptic version of The Price Is Right.

They were also created in the soviet subhuman union. It's an inherently communist thing.

At this moment, the regime's uniparty servants are crafting the amnesty bill that will forever end any hope white americans have of redressing their abuse and oppression through democratic means.

Racism in Public Health Act of 2021 Declare racism a public health crisis, collect and analyze data, and administer research and grant programs to address racism and its impact on health and well-being
Imagine that, cuckservatives are still doing the same retarded shit and being cucks.

They fuck and fuck and fuck to leftists and shitlibs.
Year after year cuckservatives give up more and more of our country and culture over to the fucking communists.

They've been doing it for decades and decades and people wonder why White Nationalists tell people not to vote for the pieces of shit.

Conservatives will only see the problem when the defensive action retreats to their neighborhood, to their kids school. By then it will be too late. This is the programming...

"Muh Ebil Nazis"

Once you wake up you will realize the reason for this, the "Nazis" were the last people to stand up to these cretins, "Nazis" weren't the bad guys...

Trudeau is a puppet like Brandon...things will change when he's told to make a change. ... the same shitty Dem party/MSM who applauded BLM-Antifa burning, smashing, looting entire city blocks & injuring 1000+police are condemning the very peaceful law-abiding freedom convoy protests.

Fuck the Dems and MSM.

#Democracy is a cheap whore house ran by JEWS!

Republicans controlled the Senate, House, and Executive in 2016.

We came out and voted in droves and handed them a silver platter.

For two years, they did absolutely nothing, except assist in the obstruction of the America First agenda and a political coup of the last legitimately-elected President of the United States of America. So that one rep lead means absolutely nothing.

So, we must not only crush the Democrat Communist Party in 2022 midterms, we must also crush the uniparty Republicans who do not have the will or nerve to fight for us.

They're very easy to spot; just listen for key words in their prattle: insurrectionists, domestic terrorists, white supremacist, racist, mysogynist, equity, misinformation, disinformation, vaccine, asylum seeker, undocumented, the big lie.

I don't know who needs to hear this but Republicans control the Senate right now 50 - 49. Means nothing. Sorry to burst your optimistic bubble open. ...

I don't know who needs to hear this, but the jews control the Senate right now 100%
"Republicans" couldnt care less.

Both partys legislate and vote to influence what comes and goes in and out of their pocket books. And the American people suffer for it.

Been that way for decades.

I seldom get asked what party I affiliate with.

And I've long answered. Neither, I'm American. Left and right-wings belong to the same bird.

As tough of a pill that is to swallow and accept, it has to be said and pay the piper.

For too long has the american public NOT been duely served and truly represented. "Look at this hand, while im doing something else with the other hand"

PFFFFT.

Yeah. Nah. Look no further than McConnell, Graham, Romney, Collins, Murkowski, and Toomey.

They'll shank the nation in the back faster than Brutus did Caesar.

The Globohomo monoparty who hates you still controls the Senate.

GOP will fold as it always does. Most recent example was four GOP (Cocaine Mitch, Carpetbagger Romney,

Murkowski....) lending a hand to confirm another wretched Biden nominee ... for the FDA this time

Spout the Boomers!
